

Thank you for downloading this WebSynths sample pack!  
Much time and love was put into recording  
and editing each and every sample.

You are free to use these samples in any music  
you create without attribution. There are no licensing fees.  
Use them as if they were your own recordings.

But please do not include them in sample packs,  
either for sale or offered free of charge.

If you enjoy using these samples, please consider becoming  
a WebSynths patron: <https://www.patreon.com/WebSynths>

And if you make a hit song  
with any of the WebSynths instruments or samples,  
please send us an email to let us know  
about your work! We'd love to celebrate with you!

Cheers!
